**Attachments:** removed.txt

Richard:

yeah, I got those. What about the ones that haven't been identified - the agenda just says, 'Example'. For example:

2:00-2:45 Event Case Study: Prescribed Fire

- Applying the rule revisions and guidance
- Example

and

3:00-4:00 Event Case Study: High Wind Dust and PM

- Applying the rule revisions and draft guidance
- Example

and

8:15-9:30 Event Case Study: Wildfires and PM

- Applying the rule revisions and draft guidance
- Example

By "WESTAR's agenda", do you mean the Wednesday session hosted by WESTAR at the Westin hotel, or the Tuesday session at our office hosted by EPA?

For EPA Examples:

Wildfire: 2015 Washoe County, NV

High Wind: Region 9 example (probably AZ, but maybe CA)

Stratospheric Ozone: Uinta Basin June 8-9, 2015 ([https://www.epa.gov/sites/production/files/2016-08/documents/tsd\\_strato3\\_june\\_2015\\_ute\\_tribe\\_public\\_comment.pdf](https://www.epa.gov/sites/production/files/2016-08/documents/tsd_strato3_june_2015_ute_tribe_public_comment.pdf))

Richard:

morning - in most cases Westar's agenda references 'example's of exceptional events that will be discussed but offers no specifics. I've downloaded and trolled through the two it references specifically - I'm hoping you may be aware of which events will be discussed.

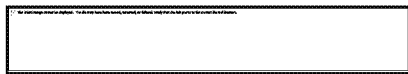

thanks
